Peter Lokey

Software Engineer in St. Louis, MO

I began learning to code in March of 2019 through the Launch Code program in Saint Louis. After years of working with great teams in bars and restaurants, I'm looking forward to starting a new career in Web Development. I am a fast learner and a logical problem solver who works well with a team.

PROJECT EXPERIENCE

Bartender's Guide — LaunchCode Capstone Project

- Built dynamic web app from scratch.
- App allows bartenders to select what products are in stock in their bar, then search for drink recipes based on their stock
- Users can also rate, comment on, and favorite others' drink recipes

WORK EXPERIENCE

Bartender/Manager — The Heavy Anchor, Saint Louis, MO

October 2011 - Present

- Work with other bartenders to build and serve drinks to guests while creating a fun and comfortable environment
- Facilitate shows, including set-up and payment of bands and entertainers
- Balance cash drawers and pay out other employees at the end of each shift

Bartender — The Royale, Saint Louis, MO

August 2018 - Present

- Work with other bartenders to build a variety of craft cocktails for guests
- Maintain thorough knowledge of beers, liquors, and cocktails in order to answer guests' questions and provide suggestions
- Balance cash drawer and make pay-outs to other employees as needed

Bartender — Das Bevo, Saint Louis, MO

April 2018 - August 2018

- Build drinks and serve food for guests
- Provide information on the Historic Bevo Mill for guests
- Maintain and balance an accurate cash drawer
